Turbo Service International

TSI Marine Turbochargers

TSI Turbo Service International and its experienced team have been at the forefront of marine turbocharger overhaul, engineering and service since 1989.

The company has sophisticated purpose-built workshops in Rotterdam, Houston and Southampton and strategic international partners in Dubai, Hong Kong, Shanghai, Singapore and Turkey.

TSI prides itself on being an independent company ensuring the flexibility to offer services for all models of marine turbochargers. Their expert staff are all trained to OEM standards. All work is covered by a comprehensive 12-month warranty, making the company a cost effective and reliable alternative to OEM service.

TSI aims to deliver on time, every time, to its customers' exact specification and satisfaction. Shipping is a risk-business with movable parameters, we are as flexible as you are and will always react accordingly.

TSI Rotterdam

TSI introduces their new facility in 's-Gravendeel, Rotterdam (Netherlands).

The facility opened its doors in May 2016 and is proficient in carrying out comprehensive repairs and reconditioning of all makes of turbochargers.

TSI introduces our new facility in 's-Gravendeel Netherlands

The Rotterdam service centre is ideally located to carry out your service work in Belgium, Netherlands and Germany and is also the home of their travelling engineers if overseas work is required.

This is a welcome addition to the TSI Network and has been established as part of a continuous commitment to maintain and improve their services globally and to support the assembly of the NTN/SNR turbocharger bearings, which TSI are one of only two companies with contracts to assemble for the marine industry.

Since 1989 TSI Turbo Service International have been at the forefront of turbocharger engineering, overhauling and providing of quality spare parts.
